## Joe Thompson Will Be New President Local Rotary Club

The nominating committee of the Pahokee Rotary club appointed by President Mike Sanders has made its recommendation to the club with a full slate of officers for the coming year. Joe Thompson, at present vice president of the club, will be elevated to the position of president at the beginning of the new Rotary year on July 1.

In the vice president's spot will be John D. Rogers and C. G. (Windy) Willis will become secretary, according to the nominating committee's recommendation. J. I. Moore will be the new treasurer.

Heading the four important committees, the nominating group chose men of outstanding ability as chairmen. Director "A" is W. D. Howard, Director "B" is John Howell, Director "C" is C. R. Wetherington and Director "D" is Lee Shirley. All directors are long-time members of the club and know full well the ideals of Rotary, therefore, the upcoming year of Rotary should be an excellent one, following the very successful year being brought to a close by President Mike Sanders and his efficient group of officials.

## Funeral Services For Jesse Ford, 59

Funeral services were held Wednesday morning at Wetherington Funeral Home chapel for Jesse G. Ford, 59, who died Monday in Everglades Memorial Hospital following an illness that has lasted less than a year. Bu' al' was at Fort Mayaca cemetery. He was agricultural superintendent for Osceola Farms of Canal Point.

A native of Lake View, S. C., Ford spent 31 years in Cuba in the sugar industry, prior to the advent of the Castro government. He moved to Canal Point at that time.

## Sugar House Ends Fairly Good Year

Glades Sugar House — owned and operated by the Sugar Cane Growers Cooperative of Florida — closed down a week ago Wednesday following a successful grinding season, according to mill officials.

There was a record 1,235,000 tons of sugar-cane ground during the season to produce approximately 100,000 tons of raw sugar. The grinding season lasted five and one-half months.

Although the severe freeze during the winter gave the cane production a severe set-back, mill officials are happy over the outcome of the season as a whole.

## Legislative Bills Affecting City Of Pahokee In Mill

Several bills have been introduced in the state legislature affecting the City of Pahokee and the Northwestern Palm Beach County Public Hospital Board. The bills have been passed in the House of Representatives and sent to the Senate where passage is assured because the proposed laws carry referendums.

One proposed law would enlarge the powers of the hospital board to the point where it could operate a nursing home in the present hospital building to be vacated soon with completion of the new hospital.

One proposed law affecting the City of Pahokee has to do with the naming of a police judge to serve instead of the mayor. Another law would provide for the mayor to be a mayor-councilman with voting power and a member of the five-man governing board of the city. Still another law would provide for a civil service board in the city.

Present city councilmen were thoughtful enough to provide for referendums on all of the bills they have sponsored in the legislature thus giving the citizens and taxpayers the final say.

## Retardation Is Florida Problem

WORTHINGTON — His name is Billy. He is eight years old and, from all outward appearances, he is just like other boys his age—but yet he isn't. Billy is a mental retardate. Because of his birth defect, Billy isn't accepted by other children and never seems to have anyone to play with.

Although Billy is a name fictionally used, he and other boys and girls throughout Florida do exist. They need professional guidance, training and adequately supervised playlearning atmospheres. This need has been recognized by a group of people interested in child welfare who have pooled their resources and are doing something for the mentally retarded child.

First step was the organization of a summer camp for the "special child", called Camp Chipola which will officially open this June. A complete program of summer camping activities will be available under the supervision of trained, experienced counselors.

The director is William G. Peters, a school teacher with a M. A. in guidance counseling of mentally retarded children. Also on the staff, in addition to a consulting physician, is a registered nurse and Charles M. Coaker, A. B., M. S. who is clinical psychologist with the Child Guidance Clinic of Pinellas County.

Camp Chipola meets all the requirements of the Florida Conference of Social Welfare; the American Camping Association; Florida State Board of Health; American Assoc. of Crippled Children and Adults' guide for Camping for Handicapped. It is also approved by the University of Florida for graduate work in the field of special education.

Camp Chipola is located on 70 acres in North Florida near Worthington. The camp site is on the bank of the Santa Fe River. Supervised activities will include hiking, cookouts, nature study sessions and other programs that are featured at summer camps everywhere.

Those desiring further information on Camp Chipola should write to: Youth Services, 1407 22nd St. South, St. Petersburg.

Why should you buy  
U. S. Savings Bonds when there are  
so many other good investments?

To help, your country is one answer—and a good one.

But Bonds have other advantages that make them worth your consideration.

For instance, they offer you just about the easiest way to save money: either with the Payroll Savings Plan where you just ask your employer to put part of your wages aside toward a Bond or through regular purchase of Bonds at your bank.

Another unique advantage of U. S. Savings Bonds is the way they stick with you. You can get your money any time.

But if you're like most people, you'll hang on to your Savings Bonds for the big things you want in your future.

And, of course, Bonds are a safe investment—as long as there's a United States of America.

Which brings us back to your country again. Bonds help defend freedom at a time when the enemies of freedom are stronger than ever.

Buy Savings Bonds: The banks or savings institutions that sell them don't charge you a penny for the service.

Keep freedom in your future with

# New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

*The Treasury explains why the new ones you buy and the ones  
you own now are better than ever*

**Q:** How does the new  $3\frac{3}{4}\%$  interest rate benefit me?

**A:** With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to  $2\frac{1}{4}\%$  for the first year and a half; then a guaranteed 4% each year to maturity.

**Q:** When did the new rate become effective?

**A:** June 1, 1959.

**Q:** Does the new rate change the Bonds I bought before June 1, 1959?

**A:** All older E and H Bonds pay more now—an extra  $\frac{1}{4}\%$  from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.

**Q:** Will the Bonds I own automatically earn their new rate?

**A:** Yes. You don't need to do a thing—just hold on to your Bonds.

**Q:** When my E Bonds mature, will they keep on earning interest?

**A:** Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.

**Q:** With the new interest rate, should I cash in my old Bonds and buy new ones?

**A:** No. The automatic  $\frac{1}{4}\%$  increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.

**Q:** How are series H Bonds different from series E Bonds?

**A:** The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

**Q:** In what denominations can I buy series E and series H Bonds?

**A:** E Bonds: \$25 (cost \$18.75); \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).

H Bonds: \$500, \$1,000, \$5,000 and \$10,000. They are priced at face value.

**Q:** How safe are U.S. Savings Bonds?

**A:** Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.

**Q:** What if my Bonds should be lost, stolen or destroyed?

**A:** You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.

**Q:** Where can I buy Bonds?

**A:** Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Payroll Savings Plan where you work. This Plan means you can have any amount you name automatically deducted every payday. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.

**Q:** How do I help strengthen America's peace power when I buy U.S. Savings Bonds?

**A:** Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.

# A Letter To Pahokee Voters

Dear Pahokee Voter:

Because I may be unable to see you personally between now and City Election day, May 4, I am using this method to put my candidacy before each of you. I am seeking election to the City Council in Group Two and sincerely solicit your vote and support in this race. If elected, I promise to make it a point to attend all of the City Council meetings, believing that each and every meeting is of supreme importance to the citizens and tax payers of Pahokee.

Many folks have asked why I want to become a member of the City Council. Many are surprised that a woman should seek a place on that governing body. The answer is easy. Our City business is important big business and should be handled with care. You and I are stockholders in this business concern and close attention to its operation is imperative if the City is to grow and prosper. If elected, I will be available at all times and will keep the best interest of our City and its citizens in mind at all times.

For your support of my candidacy, I shall ever be grateful.

Yours sincerely,

Patsy Wroten

Chevrolet Impala Super Sport Coupe—one of two bucket-seated beauties for '65.

**People who buy other big expensive-looking cars  
get one thing you won't (big expensive-looking payments)**

It looks like a big car. And is—by almost any standard you want to apply.

Width? Nobody builds a car as much as one inch wider. Length? It grew three inches this year. Roominess? Every closed model's got three inches more shoulder room, front and rear, and more leg and foot room up front too. Luxury? Nice little touches like the look of mellow walnut across the Impala's instrument panel. And big touches. Like the fineness of the same Body by Fisher workmanship that makes some of America's most

expensive cars look so expensive. How about the ride? Chevrolet engineers took the Jet-smooth one and smoothed it out even more this year. Also made it more stable by widening the wheel stance. Price? That's where Chevrolets fall way short of the other big expensive-looking cars. But we wouldn't have it any other way. Would you?

One last question: How soon can you make a good spring buy on a Chevrolet? One last answer: Just as soon as you can get down to your Chevrolet dealer's.
